

You Need a Tonic

There are times in every woman's life when she needs a tonic to help her over the hard places. When that time comes to you, you know what tonic to take—Cardui, the woman's tonic. Cardui is composed of purely vegetable ingredients, which act gently, yet surely, on the weakened womanly organs, and helps build them back to strength and health. It has benefited thousands and thousands of weak, ailing women in its past half century of wonderful success, and it will do the same for you. You can't make a mistake in taking

CARDUI

The Woman's Tonic

Miss Amelia Wilson, R. F. D. No. 4, Alma, Ark., says: "I think Cardui is the greatest medicine on earth, for women. Before I began to take Cardui, I was so weak and nervous, and had such awful dizzy spells and a poor appetite. Now I feel as well and as strong as I ever did, and can eat most anything." Begin taking Cardui today. Sold by all dealers.

Death of S. T. Walker.

(Continued from page 2.)

been failing for the past few years, his mind was bright and active to the last. He was held in high esteem by a wide circle of friends who are saddened that a good man has passed away.

The funeral was held Wednesday at 2 o'clock, at the Methodist church in Forest City. Rev. Jesse Murrell, the pastor, spoke words of condolence to the hearts bowed with sorrow. A quartett sang the songs he loved and the body was laid to rest beside those of the children gone before. The floral offerings sent by relatives and friends completely hid the casket from view.—Havana, Ill., paper.

A proposal to pay indemnity for Americans lost in the Lusitania disaster was made to Secretary Lansing by Count von Bernstorff, the German Ambassador, who also gave assurance that noncombatant ships of any character would not be attacked without warning and that safety would be accorded with passengers and crew. No official indication was given as to the acceptability of the proposal, but some officials took the view that it would end the controversy.

Bad Habits.

Those who breakfast at eight o'clock or later, lunch at twelve and have dinner at six are almost certain to be troubled with indigestion. They do not allow time for one meal to digest before taking another. Not less than five hours should elapse between meals. If you are troubled with indigestion correct your habits and take Chamberlain's Tablets, and you may reasonably hope for a quick recovery. These tablets strengthen the stomach and enable it to perform its functions naturally. For sale by Paul Drug Co. Adv.

Farmers Should Grow Alfalfa.

There will be a large extension in the acreage of alfalfa in the Eastern States in the next few years. In many places in this section there is much the same feeling toward alfalfa that the farmers of the West had toward the westward extension of clover. Many have the idea that it can't be grown, and that ends the matter, in their minds.

One of the principal troubles with eastern soils is they are deficient in humus and nitrogen. Nitrogen for most crops and on most land can be obtained by the growth of legumes much cheaper than it can be purchased. In the growing of legumes, select the one that will produce the best returns in feed, under most conditions. Alfalfa is the best legume to grow where it will do well. It will produce more feed that has a higher feeding value, on land that is adapted to its growth, than any other legume.

There is no reason why alfalfa should not be the principal leguminous crop in the East, on most soils, just as it is in the West. And the returns of the farmers in the eastern section of the United States would be much greater if a larger acreage of this crop was grown.

Moving Picture Industry.

Only a few people can even surmise the enormous expenditure of the moving picture business.

Fifty million people visit the moving picture shows of the earth every twenty-four hours.

Practically the entire motion picture output of the world now originates in America. It is the fifth largest industry of the United States. More than 70 per cent. of the films are produced in Southern California.

One thousand miles of negatives are annually developed in the Los Angeles studio, from which 40,000 miles of positive are made.

The people of the United States paid \$297,000,000 during the past year to see these pictures.

Hundreds of thousands of dollars are lavished on a single feature production.

The twenty producing companies spend over a million dollars a month in Los Angeles.

They employ 12,000 people regularly.
